  - ▭ Hertsmere Borough Boundary

**Notes**  
 The Environment Agency provides a free flood warning service for many areas at risk of flooding from rivers and the sea. In some parts of England the Environment Agency may be able to provide warnings when flooding from groundwater is possible. The Environment Agency free flood warning service can provide advance notice of flooding and can provide time to prepare.  
 The Environment Agency issues flood warnings to homes and businesses when flooding is expected. Upon receipt of a flood warning, occupants should take immediate action.  
 The Environment Agency issues flood alerts when flooding is possible. Flood alerts cover larger areas than flood warnings and are issued more frequently. Upon receipt of a flood alert, occupants should be prepared for flooding and to take action.  
 If a flood alert for groundwater is available this does not mean that your property is definitely at risk. It is very difficult to predict the exact location of flooding from groundwater as it is often related to local geology. To help people, the Environment Agency provides flood alerts for large areas that could be affected if groundwater levels were high.
