List of partners and logos to be agreed as part of the consultation process and will be included in the final version.

Business Charter

Consultation Draft

About this draft – This version has been produced as a working draft as the basis for discussion with stakeholders in order to agree a final version

Deadline for response: 30 April 2014

Why a Charter...

We are living in difficult economic times where local economies are exposed to global shocks, competition and markets.

The purpose of this **Business Charter** is to establish a new working relationship between **Hertsmere Borough Council** and **local businesses** in order to improve overall economic performance and prosperity across the borough and, as a result, contribute to achieving the vision set out in **Creative Hertsmere** the council's Economic Development Strategy and Action Plan.

Our commitment in this Charter is to....

- ✓ Champion and support local business
- ✓ Deliver the highest quality of service for businesses and where possible ensure that the particular needs of individual businesses are understood and met
- ✓ Provide value for money, especially within the current economic climate which requires an enterprising and agile approach to delivering public services
- ✓ Analyse needs and seek the views of business to inform service planning
- ✓ Monitor performance to embed a culture of continuous improvement
- ✓ Work in partnership through a range of joint working arrangements
- ✓ Deal with businesses honestly and with integrity
- ✓ Establish an internal Business Champions Group to deal with issues raised by business and ensure that the Charter remains fit for purpose
- ✓ Establish an external Economic Board to provide challenge to and direction for the Charter

The council's new relationship with business will be facilitated through Hertsmere Connect a new working arrangement between the council and the Chamber of Commerce that will be focused around a programme of local events and campaigns.

<http://www.hertsmereconnect.co.uk>

It should be noted that whilst every effort is made by council officers to assist businesses, they are not able to act as private consultants. The council accepts that most of the businesses/organisations that are regulated do not deliberately set out to break the law and any enforcement action should always be transparent, proportionate and have regard to risk of harm and previous track record.
