

Knowing our Community

1 Introduction

- 1.1 The following publication shows some of the information which the Council continues to gather and analyse on a regular basis to ensure that the Council knows and understands the constantly changing community. It is also used when implementing and making decisions on new policies and procedures across the Council's functions.

2 Hertfordshire Local Information System

- 2.1 The Hertfordshire Local Information System - HertsLIS - website, formerly known as the Hertfordshire Observatory, enables access to a wide range of data, information and intelligence relating to the county of Hertfordshire. Content includes economic development, community safety strategies, community and corporate plans, area profiles, socio-economic data, demographic data, crime and policing statistics and much more.

3 Community Profiles

- 3.1 The purpose of the [Community Profiles](#) is to develop a deeper understanding of the community and their needs by conducting ward and district profiling using detailed information. The snapshot has helped to improve our customer focus and awareness of and involvement in access to services, giving a better basis for which to design services and add value through working in partnership. The community profiles also help to keep the Council and its key partners well informed based upon up-to-date knowledge about the Borough.
