Dear [REDACTED],

NOTIFICATION OF SELF-BUILD RELIEF CLAIM DECISION

Thank you for submitting Stage 2 of your claim for self-build relief from the Community Infrastructure Levy (CIL) dated [REDACTED] for Planning Application [REDACTED].

I can advise you that following due consideration of the information submitted, it has been determined that you have provided the required supporting evidence to demonstrate that the development undertaken was self-build and is occupied by you, as the self-builder.

The total amount of self-build relief calculated for this chargeable development is £[REDACTED]*.

Please Note: The dwelling must continue to be occupied by you as the self-builder for 3 years from the date of the compliance certificate for the development or this will be considered a disqualifying event and the CIL liability will become payable. A land charge for the CIL Liability associated with this property will remain until the completion of the three year occupancy period.

If this disqualifying event takes place, you must notify the Council in writing within 14 days. Failing to do so will result in a surcharge of 20% (maximum of £2,500) of the chargeable amount payable for the development that benefitted from the self-build relief and to which the disqualifying event relates. Furthermore, the CIL liability will be payable immediately.

**Under European Commission Regulation 1998/2006 (De Minimis Regulation), this award constitutes de minimis funding. There is a ceiling of €200,000 for all de minimis funding provided to any single recipient undertaking over a rolling, three, fiscal year period (conversion of Euros to £ sterling occurs at the rate published in the Official Journal on the day the offer is made to the claimant. The daily exchange rate can be found on the European Commission's web page). De minimis funding awarded to you for this development will be relevant if you wish to apply, or have applied, for any other de minimis funding.*

You must retain this letter for 10 years from the date on this letter and produce it on any request

by the UK public authorities or the European Commission.

- (2) An authority to which this section applies must give suitable development permission in respect of enough serviced plots of land to meet the demand for self-build and custom housebuilding in the authority’s area arising in each base period.
- (3) Regulations must specify the time allowed for compliance with the duty under subsection (2) in relation to any base period.
- (4) The first base period, in relation to an authority, is the period—

 - (c) development permission is “suitable” if it is permission in respect of development that could include self-build and custom housebuilding.

- (7) A grant of development permission in relation to a particular plot of land may not be taken into account in relation to more than one base period in determining whether the duty in this section is discharged.
- (8) No account is to be taken for the purposes of this section of development permission granted before the start of the first base period.
- (9) Regulations under subsection (3)—

- (a) may make different provision for different authorities or descriptions of authority;
- (b) may make different provision for different proportions of the demand for self-build and custom housebuilding arising in a particular base period.”
- (2) In section 3 of that Act (guidance), after subsection (2) insert—
 - “(3) An authority that is subject to the duty in section 2A must have regard to any guidance issued by the Secretary of State in relation to that duty.”
- (3) In relation to entries made on the register under section 1 of that Act before the commencement of this section, any reference to self-build and custom housebuilding in section 2A of that Act (inserted by subsection (1) above) is to be read as if, in section 1 of that Act (as amended by section 9 above)—
 - (a) the words “or completion” in subsection (A1) were omitted, and
 - (b) the definitions of “completion” and “home” in subsection (6A) were omitted.

 - (a) require an application to be supported by specified information and by any further information that the Secretary of State requires the authority to provide;
 - (b) require an authority that is granted exemption to notify persons on the register kept under section 1.”

12 Further and consequential amendments

- (1) In the Schedule to the Self-build and Custom Housebuilding Act 2015 (registers under section 1), in paragraph 3 (eligibility)—
 - (a) after sub-paragraph (2) insert—

Department for Communities and Local Government

EXPLANATORY NOTE

(This note is not part of the Regulations)

The Self-build and Custom Housebuilding Act 2015 (“the Act”) requires a relevant authority to keep a register of individuals and associations of individuals who are seeking to acquire serviced plots of land in the authority’s area.

Section 2A of the Act imposes a duty on relevant authorities to grant sufficient development permissions in respect of serviced plots of land to meet the demand as evidenced by the number of entries on the register in a base period. Regulation 2 of these Regulations specifies three years as the period within which the required number of development permissions relating to a base period must be granted to satisfy the duty.

Paragraph 6 of the Schedule to the Act allows regulations to enable relevant authorities to charge fees in connection with their functions in connection with maintaining the register and complying with the duty in section 2A. Regulation 3 of these Regulations allows authorities to charge fees to recover their reasonable costs of entering a person on the register, permitting a person to remain on the register, and complying with the duty in section 2A. In cases where the duty in section 2A does not apply to a person the costs that can be taken into account in setting the fee are limited to the costs of entering that person on the register.

An impact assessment has not been prepared for this instrument as it has no impact on business, charities or the voluntary sector.

(a) S.I. 2016/950.

(b) Section 2B was inserted into the Act by section 11 of the Housing and Planning Act 2016.

Custom Build Homes

Custom Build Homes is the UK's only national enabler of Custom Build housing. We offer an all-encompassing service that supports landowners, developers and an increasing number of local authorities within the emerging custom build housing sector and have access to the UK's largest database of custom build housing demand.

We have strong links to the Government supported Right to Build Task Force and provide expertise and guidance to our clients across every aspect of the development journey from architecture and planning to sales and construction.

As we are part of the BuildStore Group (BuildStore Ltd), we also draw on the UK's leading providers of specialist finance knowledge and products to ensure that our enabling service is of the highest possible standard and maximises benefits to our landowner clients and customers.

Demand in your area

To support the preparation of this Demand Data Request, Custom Build Homes ran an initial report to determine the number of people registered on our databases who are looking for custom and self-build opportunities within a commutable distance of the proposed development site.

The results indicate the following level of demand.

Within area of provided postcodes	262	823	1,085

How is our data recorded?

The data used to prepare this Demand Assessment has been provided by the BuildStore Group, either directly through its PlotSearch portal or via its subsidiary Custom Build Homes, which captures data through its website. This data comprises private individuals who are currently registered on the Group's Custom Build and PlotSearch registers as wanting to build their home in the post code area to which the data relates. Duplications are removed.

The data held includes personal information, contact information and where people wish to build their own homes. It also captures many other data sets relating to individual housing preference, homeownership, employment status, number of occupants planned to live in the homes and projected budget for a custom or self-build home.

The benefits and vetting of registering

Individuals who register with these databases are required to complete an application form in the form of a questionnaire. When they register, they receive the benefit of emailed updates on upcoming opportunities as well as 'tips and tricks' from Custom Build Homes and BuildStore expertise. This can include advice relating to mortgages and finance options, planning, design, or similar areas of interest, all creating value for the customer, increasing their knowledge on the process and building excitement for their own project.

While it is not possible to individually qualify every person that registers with these databases to prove the seriousness of their registration, the registration process requires them to answer a series of detailed questions. Therefore, based on our experience, it can be assumed that those who are not genuinely interested will not take time providing detailed information to complete their registration. Given the comprehensiveness of the questionnaire and the fact that individuals benefit from being on the register, it should be assumed that the dataset reflects a more accurate measure of demand when compared to local authority Self-build and Custom Housebuilding Registers which are typically not promoted, offer no specific benefit to registrants and are often subject to local eligibility criteria and the payment of registration fees.

How important is this data?

All 'relevant authorities' in England have a legal duty to keep a register of individuals and associations of individuals who are seeking to acquire serviced plots of land in the authority's area and to have regard to that register when carrying out their planning, housing, land disposal and regeneration functions. Unless exempt, they also have a legal duty to grant sufficient 'development permissions' to meet the demand for Self-build and Custom Housebuilding in their area on an annual basis.

These duties are complemented by the policy in the revised National Planning Policy Framework which asks that local planning authorities plan for the needs of different groups with specific housing requirements as part of their overall housing need and that land with permission is developed without unnecessary delay.

Practice has shown that local demand registers only provide a short-term, supply-led, picture because they rely on people knowing about the register and then registering their interest. Given its 'opt-in' nature and high dependency on publicity, promotion, registration fees and eligibility criteria being applied, a local register cannot predict longer-term demand for plots in an area. Indeed, the lack of local awareness of local registers was recently underlined in the Government commissioned Bacon Review (Independent review into scaling up self-build and custom housebuilding: report, 21 August 2021) which concludes that a very high proportion of the public (83-87%) are not aware of local registers and therefore demand for custom and self-build housing is higher than data on local registers would suggest. This is also increasingly recognised in planning appeals.

In this context, the Government's Planning Practice Guidance advises that local planning authorities should use the demand data from the register, supported as necessary by additional data from secondary sources and other wider market signals, when planning for the delivery of a sufficient supply of homes.
