Dear Resident

Proposed amendment of Yellow Lines across driveways in The Crosspath, Radlett.

The council has received complaints from residents regarding the difficulty of reduced visibility levels when accessing or existing driveways in some section of The Crosspath when vehicles are parked overhanging the marked parking bays.

Highway officers have observed the parking at the location which raises a safety issue for other motorists as sight lines are obscured.

It is therefore proposed, in the interest of road safety, to extend the yellow lines outside properties numbers 50 and 56. Extending the yellow lines at these locations will help improve visibility, create passing point to help reduce congestion in the road and to improve general road safety.

A plan is attached overleaf showing the proposal for your review.

Please do note that the proposed amendment will not reduce the availability of the existing kerb space parking for residents. If you wish to make a comment on the proposal as part of this informal consultation, please email parking.policy@hertsmere.gov.uk or write to the address listed at the top of this letter.

As local residents, your views are important and all responses will be reviewed with the Portfolio Holder and your local ward councilors, prior to making any decision on whether to proceed to the final consultation stage.

Please send in your comments by **Monday 14th October 2024**.

Yours sincerely

Harry Branch
Traffic Engineer
