Hi Grace

Thank you for submitting the 'Duty to Co-operate: The Water Environment' document dated September 2015 which outlines how you have considered water quality and waste water infrastructure issues and Thames Water's advice in developing the Site Allocations and Development management Policies Plan. On this basis, please see attached our revised representation on Policy SADM18 'Water Supply and Wastewater.'

In response to the proposed submission consultation, Thames Water will make comments on the individual site allocations as to potential capacity issues with the wastewater network and if upgrades are likely to be required. We are sure you will check these comments against the site allocation text to ensure the text does take account (if necessary) the need to ensure capacity is assessed and adequate capacity is made available before development is occupied.

The Environment Agency's role and remit in this is with regard to meeting the objectives of the Thames River Basin Management Plan (2009) and Water Framework Directive to prevent deterioration of water bodies and improve water quality wherever possible. Water Cycle Studies are a way of investigating the current capacity of the waste water and water supply infrastructure across a catchment and identifying solutions to overcome any potential problems linked to planned growth and development so it's positive that you intend to participate in the Herts County Council Water Project.

If you require anything further please do not hesitate to contact me.

Kind regards

Hi Keira,

Thanks for confirming this, I have added a paragraph after the conclusion to reference our participation in the Water Project and note that this will inform the Core Strategy review and future DPDs as you advise.

Kind regards,
Grace

Hi Grace

Thanks for sending that over. I'm happy to revise our representation on that basis but could I make one minor request? Could a brief paragraph be added in terms of a 'forward look' i.e. your intentions to participate with the Hertfordshire County Council Water Project to look at waste water and water resource infrastructure issues strategically and that the outputs from that project will inform your review of the Core Strategy and future DPDs?

Kind regards

Keira

Hi Keira, Clark and Tricia,

Please see the attached note on the Duty to Co-operate relating to Thames Water, which follows our meeting on Tuesday. I hope that this gives you sufficient time to take a look and, if you consider it appropriate, revise your representation to the pre-submission SADM consultation before 5pm on Monday 14th September.

Thank you for meeting with us on Tuesday, we are also working on the other concerns that we discussed, which relate to the housing allocations, which we hope we can address through a Statement of Common Ground once we have carried out the required work.

Kind regards,
Grace

Hi Tricia,

Thanks for your response. That's OK, these things happen!

Yes, we met with Kiera last year before we re-drafted the document, so that will be fine if she is available.

Kind regards,
Grace

Hi Grace,

Many thanks for your email and for coming back to me so quickly.

Unfortunately I am on leave after today for two weeks and won't be back in the office until Wednesday 16 September. I know you have worked with Keira Murphy in the past on these consultations and actually we worked together on this response so it might be that Keira could meet with you. Unfortunately Keira is on leave today so I am not able to check her availability for a meeting.

I have copied her into this email and hope that she can contact you when she is back next week, I hope this is ok.

Apologies I can't be of more help than this at the moment, but I will be in touch with you when I am back from leave.
kind regards

3. To which part of SADM ('the Plan') does this representation relate?

-----------	--------------------------	--------	---------------	--------------	--------------------------	------------------------------	--------------------------

4. In relation to the part of the Plan you identified in 3, do you consider the Plan to be:

Please tick which boxes apply

4(a) Legally Compliant	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>	no comment to make	<input type="checkbox"/>
4(b) Compliant with the Duty to Co-operate	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>	no comment to make	<input type="checkbox"/>
4(c) Sound	Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>	no comment to make	<input type="checkbox"/>

If you have entered 'No' to 4(c), please continue to Q5. In all other circumstances, please go to Q6.

5. If you consider the Plan to be unsound is this because it is not:

5(a) Positively prepared	<input type="checkbox"/>	Please tick which box(es) apply
5(b) Justified	<input type="checkbox"/>	
5(c) Effective	<input type="checkbox"/>	
5(d) Consistent with national policy	<input type="checkbox"/>	

6. If you consider the Plan is not legally compliant or fails to comply with the Duty to Co-operate or, having regard to the criteria you ticked at 5 above relating to soundness is unsound, please give details of why. Please be as precise as possible.
If you wish to comment in support of the Plan's legal compliance, compliance with the Duty to Co-operate or soundness or wish to make any other comment, please also use this box.

We support the policy wording as it is clear our previous comments particularly in regard to water resources and setting a water efficiency standard have been taken on board. We also support the policy position that developers will be required to demonstrate adequate waste water capacity on and off the site to support development and that development will be supported where sufficient capacity already exists or extra capacity is provided in time to serve developments. This will help to minimise any detrimental impacts on water quality and thus contribute toward achieving Water Framework Directive objectives. We believe the duty to co-operate requirements have been met and would be keen to see this continue with the future review of the Core Strategy and participation in the Hertfordshire County Council Water Project.

7. Please set out as precisely as possible what change(s) you consider necessary to make the Plan

- legally compliant or
- sound (having regard to the criteria you ticked at 5 above relating to soundness).

You will need to say why this change will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text.

(continue on a separate sheet/expand box if necessary)

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity for further submissions based on the representation you are currently making. **After this current publication stage, further submissions will only be able to be made at the Inspector’s request, based on the matters and issues he/she identifies for Examination.**

8. If you do not consider the Plan to be sound and the Council is prepared to make changes to the Plan which reflect your suggested change, would you be prepared to enter into a ‘Statement of Common Ground’ with this Council?

Yes No

9. If your representation is seeking a modification/change to the Plan, do you consider it necessary to participate at the oral part of the Examination?

No, I do not wish to participate at the oral Examination Yes, I wish to participate at the oral Examination
